

El remolcador orbital

Titre(s): El remolcador orbital

Ensemble: AERONÁUTICA Y ASTRONÁUTICA 741 00347647 01/03/2005

Auteur(s): MONTES PALACIO Manuel

Adresse bibliographique: 2005

Description matérielle: 215-220 p. : couleur

Résumé ou extrait: ConeXpress Orbital Life Extension Vehicle (CX-OLEV) - an orbital "space tug" that will supply the propulsion, navigation and guidance to maintain a telecom satellite in its proper orbital slot for up to eight additional years. The CX-OLEV also can be used to rescue spacecraft that have been placed in a wrong orbit by their launch vehicles, or which have become stranded in an incorrect orbital location during positioning maneuvers.

Sujet(s): EUROPE
SATELLITE EXPÉRIMENTAL
CX-OLEV (Orbital Recovery)
