Titre(s) : Dark territory : the secret history of cyber war / Fred Kaplan

Auteur(s) : Kaplan, Fred M. (1954-....)

Publication : New York (N.Y.) [etc.] : Simon & Schuster paperbacks, 2017

Description matérielle : 1 vol. (VII-343 pages) ; 22 cm

ISBN : 978-1-476-76326-2
1-476-76326-7

EAN : 9781476763262 br.

Classification décimale Dewey : 364.168 2

Note sur les bibliographies et les index : Notes bibliographiques. Index

Résumé ou extrait : "As cyber-attacks dominate front-page news, as hackers displace terrorists on the list of global threats, and as top generals warn of a coming cyber war, few books are more timely and enlightening than Dark Territory: The Secret History of Cyber War, by Slate columnist and Pulitzer Prize-winning journalist Fred Kaplan. Kaplan probes the inner corridors of the National Security Agency, the beyond-top-secret cyber units in the Pentagon, the "information warfare" squads of the military services, and the national security debates in the White House, to tell this never-before-told story of the officers, policymakers, scientists, and spies who devised this new form of warfare and who have been planning--and (more often than people know) fighting--these wars for decades. From the 1991 Gulf War to conflicts in Haiti, Serbia, Syria, the former Soviet republics, Iraq, and Iran, where cyber warfare played a significant role, Dark Territory chronicles, in fascinating detail, a little-known past that shines an unsettling light on our future."
