Résumé ou extrait : Présentation de l'éditeur : "The third edition of this major work provides a systematic, comparative assessment of the efforts of a selection of major countries, including the U.S., to deal with immigration and immigrant issues— paying particular attention to the ever-widening gap between their migration policy goals and outcomes. Retaining its comprehensive coverage of nations built by immigrants and those with a more recent history of immigration, the new edition pays particular attention to the tensions created by post-colonial immigration, and explores how countries have attempted to control the entry and employment of legal and illegal Third World immigrants, how they cope with the social and economic integration of these new waves of immigrants, and how they deal with forced migration."
