Résumé ou extrait : Extrait de l'ouvrage : "The Mediterranean has been for millennia one of the global cockpits of human endeavor. World-class interpretations exist of its Classical and subsequent history, but there has been remarkably little holistic exploration of how its societies, culture and economies first came into being, despite the fact that almost all the fundamental developments originated well before 500 BC. This book is the first full, interpretive synthesis for a generation on the rise of the Mediterranean world from its beginning, before the emergence of our own species, up to the threshold of Classical times, by which time the "Middle Sea" was already in effect made."
