Case Studies of Civil-Military Relations in Non-Democratic States and Illiberal Democracies: The Issue of Control Part 2. Case Studies of Civil-Military Relations in New Democracies: The Issue of Effectiveness in Different Roles and Missions Part 3. Case Studies of Civil-Military Relations in Established

Democracies: The Dynamics of Change in Control and Effectiveness Conclusion

Résumé ou extrait : La 4e de couv. indique : "This 2nd edition of The Routledge Handbook of Civil-Military Relations offers a wide-ranging, internationally focused overview of the field of civil-military relations. The armed forces are central actors in most societies and are involved in many different roles. Amongst other activities, they engage in peace operations, support the police in fighting crime, support civilian authorities in dealing with natural disasters, and fight against terrorists and in internal conflicts. The existing literature on this subject is limited in its discussion of warfighting and thus does not do justice to the variety of roles. This 2nd edition not only fills this important lacuna but offers an up-to-date comparative analysis and provides a conceptual framework to analyse how strategies can realistically be implemented. Amalgamating ideas from key thinkers in the field, the book is organized into three main thematic parts: Part I: Civil-Military Relations in Non-Democratic States and Illiberal Democracies; Part II: Civil-Military Relations in New Democracies; Part III: Civil-Military Relations in Established Democracies. This handbook will be essential reading for students and practitioners in the fields of civil-military relations, defense studies, war and conflict studies, international security, and IR in general."
