

A general system of surgery : In three parts. Containing the doctrine and management I. Of wounds, fractures, Luxations, Tumours, and Ulcers, of all Kinds. II. Of the several operations performed on all Parts of the Body. III. Of the several bandages applied in all Operations and Disorders. The whole illustrated with thirty eight copper-plates, exhibiting all the Operations, Instruments, Bandages, and Improvements, according to the Modern and most approved Practice. To which is prefixed an introduction Concerning the Nature, Origin, Progress, and Improvements of Surgery; With such other Preliminaries as are necessary to be known by the Younger Surgeons. Being a Work of Thirty Years Experience. Translated into English from the Latin of Dr. Laurence Heister, Professor of Physic and Surgery in the University of Helmstadt, Fellow of the Royal Society, London, and of the Royal Academy at Paris, &c. The fifth edition.
