

Moving objects databases

Type de contenu : Texte

Type de médiation : b

Titre(s) : Moving objects databases [Texte électronique] / Ralf Hartmut Güting and Markus Schneider

Auteur(s) : Güting, Ralf Hartmut (1955-....)

Autre(s) responsabilité(s) : Schneider, Markus (1963-....) (Autre)

Editeur, producteur : San Francisco, Calif. : London : Morgan Kaufmann, cop. 2005

Description matérielle : 1 vol. (XIII-389 p.) : ill. ; 24 cm

Collection : Morgan Kaufmann series in data management systems

ISBN : 9780120887996

Classification décimale Dewey : 006.74 (XML) 23

Note(s) : Includes bibliographical references and index

Résumé ou extrait : The current trends in consumer electronics - including the use of GPS-equipped PDAs, phones, and vehicles, as well as the RFID-tag tracking and sensor networks - require the database support of a specific flavor of spatio-temporal databases. These we call Moving Objects Databases. Why do you need this book? With current systems, most data management professionals are not able to smoothly integrate spatio-temporal data from moving objects, making data from, say, the path of a hurricane very difficult to model, design, and query. Whether your field is geology, national security, urban planning, mobile computing, or almost anything in between, this book's concepts and techniques will help you solve the data management problems associated with this kind of data.--BOOK JACKET
