Résumé ou extrait : "This book presents a thought-provoking challenge to the commonly held belief that Islamists uniformly reject the Western-dominated world order. In the wake of George W. Bush's declaration of a 'global war on terror' in 2001, Islamists have often been associated with violence, opposition to liberal values, and the disruption of order. However, a closer examination reveals that only a fraction of the groups categorised as 'Islamist' genuinely combat the global order. Through an in-depth analysis of the discourses of Tunisian Ennahda and Lebanese Hezbollah, this book demonstrates that Islamist stances toward the world order involve a delicate balance between resistance to certain aspects of the Western-dominated order and recognition of others. Hanna Pfeifer compellingly highlights Islamists as (world) political actors, engaging in negotiations, making concessions and striving to harmonise competing ambitions and interests, as they navigate the complexities of a global order under Western hegemony."
