

## **Intelligence analysis**

Type de contenu : Texte

Type de médiation : sans médiation

Titre(s) : Intelligence analysis : a target-centric approach / Robert M. Clark

Auteur(s) : Clark, Robert M.

Mention d'édition : 3rd ed.

Editeur, producteur : Washington : CQ press, c2010

Description matérielle : 1 vol. (XVII-339 p.) : ill., cartes, graph. ; 23 cm

ISBN : 978-1-604-26543-9  
1-604-26543-4

EAN : 9781604265439 br.

Classification décimale Dewey : 327.12

Note sur les bibliographies et les index : Notes bibliogr. Index

Note sur le contenu : The intelligence process Defining the intelligence problem An analysis approach to the target The analytic spectrum Overview of models in intelligence Sources of intelligence information Evaluating and collating data Collection strategies Denial, deception, and signaling Prediction Predictive techniques Shaping forces Organizational analysis Technology and systems analysis The analyst and the customer Appendix : A tale of two NIEs

Résumé ou extrait : As America's enemies have changed and evolved, the American intelligence community has been forced to find more effective methods of managing intelligence analysis. Old hierarchical models of collection and analysis must give way to horizontal, networked solutions. In Intelligence Analysis, Robert M. Clark explains that a collaborative, target-centric approach allows for more effective analysis, while better meeting customer needs. The new third edition has been comprehensively revised to reflect changes in the constantly shifting landscape of intelligence. With new examples throughout, Intelligence Analysis now includes discussions of framing effects, human terrain models, cyber collection, computer network exploitation, and more. Further, a new section on the 'defense analysis challenge' clarifies the relationship between the analyst and the customer. Once again, Clark has updated the practical information and day-to-day details as only an experienced hand could, bringing essential clarity and insight to this 'must-have'
