Note sur le contenu : How to get convoys safely across the Atlantic How to win command of the air How to stop a blitzkrieg How to seize an enemy-held shore How to defeat the "tyranny of distance"

Résumé ou extrait : "Engineers of Victory" is a new account of how the tide was turned against the Nazis by the Allies in the Second World War, the focus being on the problem-solvers: Major-General Perry Hobart, who invented the "funny tanks" which flattened the curve on the D-Day beaches; Flight Lieutenant Ronnie Harker "the man who put the Merlin in the Mustang"; and Captain "Johnny" Walker, the convoy captain who worked out how to sink U-boats with a "creeping barrage"

Sujet - Nom commun : Guerre mondiale (1939-1945) -- Génie militaire
Ingénieurs militaires -- Influence
Guerre mondiale (1939-1945) -- Opérations militaires
Stratégie -- Influence
