Résumé ou extrait : A Research Guide to Southeastern Europe: Print and Electronic Sources is designed to aid those interested in exploring this dynamic region in locating the best resources available, whether looking for archival collections in Albania or dissertations and theses in Greece. It provides readers up-to-date information on a variety of research collections from over twenty countries and in over a dozen languages. The focus of the volume is on the modern era, primarily the 18th century to the present, the subject areas of the humanities and social sciences, though researchers from outside of the subject and temporal scope of the work will find information of use, and the countries of Albania, Bosnia and Hercegovina, Bulgaria, Croatia, Greece, Kosovo, Macedonia, Moldova (including the Pridnestrovian Moldavian Republic), Montenegro, Romania, Serbia, Slovenia, and Turkey. This volume is distinctive in that it is the only bibliographic resource that offers such extensive subject, linguistic, and regional treatment. This work is composed of five chapters and three appendices. The chapters are focused on research materials, giving readers access points for critical materials on Southeastern Europe both in print and digital formats from libraries, archives, journals, and databases. The appendices focus on library classification, educational programming geared to language instruction, and transliteration of non-Latin scripts.
