Classification décimale Dewey : 320.947 7

Note sur la responsabilité : Autres contributeurs : Sergii Pakhomenko, Illimar Ploom (coéditeurs scientifiques)

Note sur les bibliographies et les index : Bibliographie en fin de chapitres

Résumé ou extrait : "Russia's extensive military campaign in Ukraine is framed not merely as an assault on the Ukrainian nation but as a broader confrontation with Western countries, as orchestrated by the Kremlin. The book examines the deliberate escalation of tensions since the Euromaidan protests in Kyiv (2013–2014) and the subsequent overthrow of the pro-Russian Yanukovich regime. This period marked

the beginning of intensified hostilities, culminating in the annexation of Crimea and the establishment of pro-Russian puppet states in the Donetsk and Luhansk regions in 2014, followed by their incorporation into the Russian Federation in February 2022. In addition to providing a historical overview, the book examines the organization and structure of Russian influence operations. It introduces modernized concepts and offers a novel classification of "influence operations," exploring their connections to information warfare, computational propaganda, disinformation, cyberattacks, AI-generated attacks, and the manipulation of politicians and opinion leaders, among other tactics. This study presents a critical resource for understanding the multifaceted nature of Russian influence strategies in the contemporary geopolitical landscape" (extrait de la 4e de couverture)

Sujet - Nom commun : Guerre du Donbass (Ukraine ; 2014-2022)

Guerre russo-ukrainienne (2022-....)
