Analysis : The Promise of Civil Sphere Theory / Cate Carter and Brad West

Résumé ou extrait : "Civil-military relations have changed over time with respect to changing demographics, new domestic and international responsibilities, Industry-Defence cooperation, women in the armed forces and contemporary veteran wellbeing. The New Australian Military Sociology aims to provide an antipodean view to theorising civil-military entanglements and uses Australia's unique geographic, political and cultural context to serve as a case study for other countries"
