Résumé ou extrait : "This book looks at the emerging power dynamics in the Indo-Pacific region and
locates India and its interests within the overarching geostrategic framework. With US and China
emerging as leading players within the region, the book analyses the challenges to India's foreign policy

in the face of new alliances, counter-alliances, and great power equations that have formed after the Cold War. It discusses important issues such as China's strategic forays in the Indian Ocean, the balance of power between countries, India's Act East opportunities, Russia's re-engagement in the region, the South China Sea dispute, India's maritime strategy, and the conundrum of the Quadrilateral Security Dialogue facing India. A comprehensive study of the changing geopolitical and geostrategic environment of the Indo-Pacific region, the book will be an essential read for scholars and researchers of international relations, global politics, foreign policy, maritime studies, Chinese studies, South Asian studies, geopolitics, and strategic studies."
