Résumé ou extrait : Col Charles M. Westenhoff, USAF, retired, has compiled a thought-provoking collection of ideas from an array of luminaries--including contemporary and legendary generals, innovative tacticians and strategists, world leaders, and philosophers. The quotations were chosen for their value to Airmen and the profession of arms. The aim of this book is to supply Airmen with useful thoughts that might help them meet their known responsibilities and the unknown challenges their service will bring. Gen T. Michael Moseley, chief of staff, USAF, notes that "understanding the way that our predecessors handled their challenges can equip us to better serve our nation."
