Résumé ou extrait : Présentation de l'éditeur : "South Asia represents an extravagantly diverse region with a multitude of asymmetrical characteristics with regard to size, population, biodiversity and economy. Governance and Security issues in South Asia incarnates a comprehensive peep into the nature, gravity, navigation and drivers of governance and security issues across the South Asian region. While canvassing the different aspects of governance and security issues in the region, the authors have critically portrayed security dilemmas and governance pitfalls. The book is useful for academicians, policy makers, scholars, researchers, development professionals, think tanks and people involved in South Asian affairs."
