Résumé ou extrait : This book breaks new ground by examining a little known dimension of China's foreign policy: trilateral aid cooperation. Denghua Zhang sets this highly original analysis in the context of the new assertiveness of Chinese foreign policy under Xi Jinping, the China "International Development Cooperation Agency established in 2018, and the Belt and Road Initiative, which now serves as the framework for Chinese overseas aid and engagement. At a time when the debate in the West about the rise of China has intensified, not always knowledgeably, this book fills an important gap in our understanding of China in South East Asia and the Pacific.
