Classification décimale Dewey : 940.412 41
355.424

Note sur les bibliographies et les index : Bibliogr. p. [145]-157. Notes bibliogr. Index

Résumé ou extrait : La page de faux-titre indique : "The soldier-horse relationship was nurtured by The British Army because it made the soldier and his horse into an effective fighting unit. Soldiers and their Horses explores a complex relationship forged between horses and humans in extreme conditions. As both a social history of Britain in the early twentieth century and a history of the British Army, Soldiers and their Horses reconciles the hard pragmatism of war with the imaginative and emotional. By carefully overlapping the civilian and the military, by juxtaposing 'sense' and 'sentimentality', and by considering institutional policy alongside individual experience, the soldier and his horse are re-instated as co-participants in The Great War. Soldiers and their Horses provides a valuable contribution to current thinking about the role of horses in history."
