(0-12 Months) Financial Burden Sharing Looking Ahead

Résumé ou extrait : Présentation de l'éditeur : "This report investigates humanitarian and stabilization needs in Iraq, through a case study of Mosul. and offers recommendations for actions for stabilization after liberation from ISIS. The research team examined humanitarian needs, security implications, infrastructure and services, and governance and reconciliation. All of these activities will affect the immediate stabilization of Iraq and Mosul more specifically, including whether civilians can return home."
