ISBN : 0-7391-0713-5

978-0-7391-0713-3

Classification décimale Dewey : 358.83

Note sur les bibliographies et les index : Bibliogr. p. [227]-248. Index

Résumé ou extrait : In The Militarization and Weaponization of Space, Matthew Mowthorpe diligently analyzes the military space policies of the United States, the Soviet Union/Russia, and the Peoples Republic of China from the Cold War period to the present day. Mowthorpe focuses on the development of the ballistic missile defense and other anti-satellite systems and aptly assesses to what degree space will become armed. This work cogently addresses an issue of increasing urgency to scholars of international politics.
