Titre(s) : Planning for protraction : a historically informed approach to great-power war and Sino-US competition / Iskander Rehman

Auteur(s) : Rehman, Iskander (1984-....)

Publication : London New York (N.Y.) : Routledge London : the International Institute for strategic studies, 2023

Description matérielle : 1 vol. (199 p.) : ill., cartes ; 24 cm

Collection : The Adelphi series 1944-5571 496-497

ISBN : 978-1-03-273477-4  
1-03-273477-9

EAN : 9781032734774 br.

Appartient à la collection : Adelphi [series] 1944-5571 496-497

Classification décimale Dewey : 327.510 73

Note sur les bibliographies et les index : Notes bibliogr. p. 139-196. Index

Résumé ou extrait : As Sino-US relations have deteriorated, concerns have grown in Washington over its ability to defeat China in a major conflict. A conflict between such peer competitors would likely become a protracted war of attrition drawing on all dimensions of national power, but this reality has yet to receive a sufficient degree of analytical attention. In this Adelphi book, Iskander Rehman provides a historically informed and empirically grounded study of protracted great-power war, its core drivers and characteristics, and an examination of the elements that have most often determined a competitor's long-term strategic performance. Final victory in a protracted conflict, this book argues, rests on a combination of three core factors: a state's military effectiveness and adaptability, its socio-economic power and resiliency, and the soundness of its alliance management and grand strategy. A detailed analysis of the contemporary Sino-US rivalry assesses how both parties might fare in the event of a protracted war, while highlighting some of its key differentiating aspects - most notably its nuclear and cyber dimensions.
